

Wings of *Luxury*

Our Story

Founded in Mumbai in 2007 by **Rajeev Wadhwa** and **Rajesh Wadhwa**, Wadbros began its journey with a focus on high-performance **ventilation solutions** – driven by precision engineering, reliability, and purpose. Over the years, this strong technical foundation evolved into something more expressive: a design-led approach to airflow that blends function with form.

Today, **Wadbros** brings the same engineering excellence into designer ceiling fans, creating products that are as visually striking as they are effortlessly efficient. Every creation reflects a thoughtful balance of innovation, craftsmanship, and modern aesthetics – designed to elevate contemporary living spaces.

The Wings Series

Inspired by Nature. Sculpted for Living.

The **Wings** Series by **Wadbros** is a celebration of movement, grace, and artistic expression. Inspired by nature's most elegant flyers, each fan is sculpted to embody strength, fluidity, and effortless motion **transforming ceilings into refined design statements.**

From the calm sophistication of the Swan to the bold presence of the Falcon, the Wings Series pairs sculptural forms with precision engineered **BLDC motors** to deliver **airflow** that is **silent, smooth, and perfectly balanced.** Every detail is designed to enhance ambience, comfort, and visual harmony.

More than just ceiling fans, the Wings Series creates an atmosphere where art meets everyday living. **Wadbros Wings Series** – It's not just about air. It's about atmosphere.

Unveiling The Luxury Wings Series

Where Innovation Meets Elegance!

Introducing **'Wings'**, a series of designer ceiling fans by **Wadbros**, where luxury takes flight. Inspired by the **ethereal grace and effortless motion of birds**, each fan is a masterpiece of form and function.

Designed with meticulous craftsmanship and a keen eye for elegance, this collection transforms every space into a sanctuary of sophistication, where innovation glides as smoothly as the wind.

Here are some key features that set the **Wings** Collection apart:

Unparalleled Performance and Smart Technology

BLDC Technology: Consumes up to 70% less power than conventional fans, ensuring remarkable energy efficiency
Whisper-Quiet Operation: Enjoy ultra-quiet cooling for a truly tranquil ambiance
Smart Controls: Effortless convenience with remote access, allowing seamless adjustments at your fingertips.

Exquisite Design and Aesthetic Appeal

Sleek Contours and Premium Finishes: Crafted to blend effortlessly into contemporary interiors, adding a touch of sophistication
Sculpted Elegance: A masterpiece in design, combining form and function to elevate any space.

Assurance and Reliability

Industry Leadership: Continuously setting new benchmarks in innovation and customer satisfaction with 2-Year Warranty. Enjoy peace of mind with our commitment to quality and durability.

Tips for a Flawless Fan Fit

- ✔ Measure before you choose: Blade span and ceiling height matter.
- ✔ Keep proportions in mind: Oversized fans for large rooms, compact for smaller nooks.
- ✔ Complement, don't clash: Match finishes to furniture, not just ceiling paint.
- ✔ Quiet is luxury: Opt for noiseless, high-performance motors for seamless elegance.
- ✔ Remote or App control: Choose convenience with advanced features that suit your lifestyle.

Future of Luxury Living

Step into the next era of fan technology with BLDC (Brushless DC) motor fans – engineered for **efficiency, elegance, and endurance**. These intelligent motors consume up to 70% less electricity than traditional AC fans, delivering powerful airflow while dramatically reducing energy costs.

But it's not just about performance – it's about refinement. BLDC fans operate **whisper-quiet**, ensuring a serene atmosphere in your most sophisticated spaces. Their **compact and sleek design** allows for seamless integration into any modern interior.

Longer lifespan, zero hum, and smart controls – BLDC motors aren't just an upgrade, they're a lifestyle enhancement.

Summer Just Got Better

Beat the heat in style with your **Wadbro's Designer Luxury Fan!** Set it to **rotate anti-clockwise** during summers – this pushes air downward, creating a refreshing breeze that **instantly cools** your space. Experience comfort like never before – a **Wadbro's** fan can make the room feel up to 4°C cooler than the actual temperature.

Circulate Warmth. Elevate Comfort

When winter chills set in, switch your **Wadbro's** Designer Luxury Fan to **rotate clockwise**. This motion gently pulls cool air upward, pushing the warm air trapped near the ceiling back down – keeping your living space comfortably **warm and energy-efficient**.

GOLDEN ORIOLE

A Song of Light and Air

Vibrant yet refined, the **Golden Oriole** brings a sense of radiance to any space. Its soft golden undertones and perfectly curved blades mirror the bird's graceful flight through sunlight. It's not just a fan – it's a statement of joyful sophistication.
